

# Construction

**Construction sites can be one of the most hazardous work environments. Many workers are often operating in urban areas and on smaller sites where machinery, vehicle movements and members of the general public all need to be considered.**

To ensure everyone's safety, prominent and clear messaging is of paramount importance on and around building sites.

To discuss your signage requirements, please call our team on 01621 828882.

## Sign Packs

To offer an extra helping hand, we have created a selection of Sign Packs. The packs are a quick, easy and cost-effective way of ensuring you have all the signs needed for a safe construction site.

Whether you are in need of a basic starter pack, traffic management signs, or a full suite of health and safety signs, our packs have been carefully selected to suit any construction site and also help meet safety regulations.

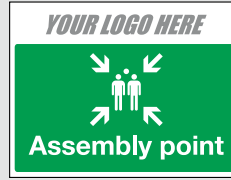

### Starter Pack

5 essential signs to help make your site safe and compliant.

Pack code - EE10000

600 x 400mm

600 x 400mm

600 x 800mm

400 x 300mm

400 x 300mm

5 signs starter pack		
Correx	4 mm	10 mm
Prices	£165.00	£195.00

### Health & Safety Pack

A selection of hazard, prohibition, mandatory and information signs for a safe site.

Pack code - EE10217

22 Signs £165.00

400 x 300mm Qty 1

400 x 300mm Qty 1

400 x 300mm Qty 1

400 x 300mm Qty 1

400 x 300mm Qty 4

400 x 300mm Qty 2

600 x 400mm Qty 3

600 x 400mm Qty 1

600 x 400mm Qty 2

600 x 400mm Qty 2

600 x 400mm Qty 1

600 x 400mm Qty 2

600 x 400mm Qty 1

### Traffic Management Pack

Management speed and traffic flows with these fourteen essential signs

Pack code - EE10218

14 Signs £215.00

600 x 400mm Qty 2

600 x 400mm Qty 2

600 x 400mm Qty 2

600 x 400mm Qty 2

600 x 400mm Qty 2

600 x 400mm Qty 2

600 x 400mm Qty 1

600 x 400mm Qty 1

## Sign Packs

### Main Sign Pack

All the vital signs needed for a safe construction site.

Pack code - EE10216

38 Signs **£2100.00**

**YOUR LOGO HERE**  
**SITE NAME**

All drivers and visitors please report to site agents office

- Safety helmets must be worn
- High visibility jackets must be worn
- Protective footwear must be worn
- Parents Building sites are dangerous Please keep your children away

## Scaffolding Signs

Cost effective and easy to fit scaffolding signs are the perfect solution for when normal sign fixing is impractical. Being lightweight but rigid, the signs are made of 4mm Correx, using pre-cut tabs and slots the sign will remain secure in all weather conditions.

Remove your scaffolding sign from the packaging

Fold the top along the pre-pressed lines and wrap around scaffold pole

Insert tabs into the pre-cut slots to secure in place

**£44.97 per sign**

- Emergency Service Details

Plastic pockets for:

- F10 Form
- Insurance Certificate
- Health and Safety Policy
- Site Induction Register
- Scaffold & Plant Register
- Lifting Equipment Register
- Fire Evacuation / Fire Plan
- Accident Book

It is also possible to amend/bespoke this Site Safety Notice Board and tailor it to your individual needs.

# Traffic Signage

**As more vehicles take to the roads, now more than ever there is a need for clear, uncluttered and prominent signage.**

The Department of Transport estimate that over 35 million vehicles use the UK road network and many are now moving away from conventional transport and choosing to travel on two wheels. In light of this, we have now extended our range of rear vehicle warning signs to help all road users remain safe on the highways.

To discuss your signage requirements, please call our team on 01621 828882.

## CE Certified Traffic Signs

Road traffic signs must conform to The Traffic Signs Regulations and General Directions 2002. The signs on this page fully conform to this legislation.

The reflective material used on these signs fully conforms to BS EN 12899-1:2007, which has replaced BS 873 parts 5 and 6. These are supplied in 3mm Aluminium composite with channel for fixing. This material has little scrap value and therefore acts as a theft deterrent.

Protective Overlay Film can be overlaminated on any traffic sign for extra sign face protection. CE certification is required for use on public highways. For private land CE certified signs are not required.

# Material Choices

## Rigid Plastic

Our best-selling material choice, 1mm semi-rigid plastic PVC is suitable for interior and exterior use. Signs are supplied with square corners no holes as standard.

Series Code - 20

## Self-Adhesive Vinyl

A cost effective high gloss PVC with a peel off backing, self-adhesive vinyl is ideal for interior signage. This material adheres to most smooth, clean surfaces including curves.

Series code - 30

## Photoluminescent (Rigid Plastic and SAV)

Photoluminescent signs provide temporary visibility in the dark making it ideal for fire signage. In line with PSPA, standard signs are produced on Class B, with Class C material available on request.

Series Codes - RP 21 / SAV 31

## Foamex

A versatile PVC foam sheet with a smooth matte finish. This material is often used for temporary signs requiring a superior look. Available in 1, 3 and 5mm thicknesses.

Bespoke material on request

## Aluminium

Aluminium is a long-lasting durable coated metal that can be used for both interior and exterior signs.

Series Code - 10

## Aluminium Composite

A rigid yet lightweight composite panel which offers a cost effective alternative to standard aluminium. With minimal scrap value, its use can help deter signage theft. This material is ideal for internal or external use.

Series code - 11

## Correx

A durable yet lightweight corrugated PVC material particularly suited to temporary signs. Available in 4mm and 10mm thicknesses.

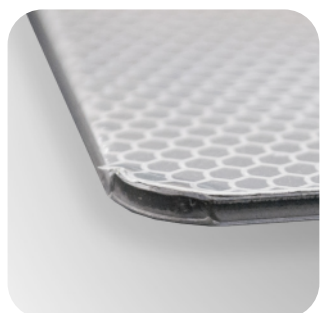

Bespoke material on request

## Non-PVC Bubble Board

As a more eco-friendly alternative to Correx, this 3mm corrugated plastic material is just as sturdy and robust. Available on all construction signs on request.

Bespoke material on request

## Reflective

Class 1 or Class 2 reflective material is adhered to aluminium composite as standard, but can be supplied as a vinyl or applied to any rigid substrate. Generally used for traffic signs that can be post or wall mounted.

Series codes - Traffic 70, Safety 75

## Brushed Stainless Steel

Brushed Stainless Steel is available in two grades. 304 grade material provides a prestigious look ideally suited for internal signs. 316 marine grade available on request for external signs.

Series code - 60

## Special Effect Aluminium Composite

Available in both mirrored gold and brushed silver finish. These special effect finishes create a contemporary look when used on internal signage.

Bespoke material on request

## Polycarbonate/Acrylic

Two clear materials with lightweight and durable properties. Polycarbonate is more temperature and UV resistant whilst Acrylic is a perfect glass alternative.

Bespoke material on request

# Making a Purchase

## Installation Guide

Prior to buying your sign it is important to consider where the sign will be used and from what distance it needs to be viewed.

The diagram below is intended to be used as a guide only.

Recommended installation heights:

Above doors:

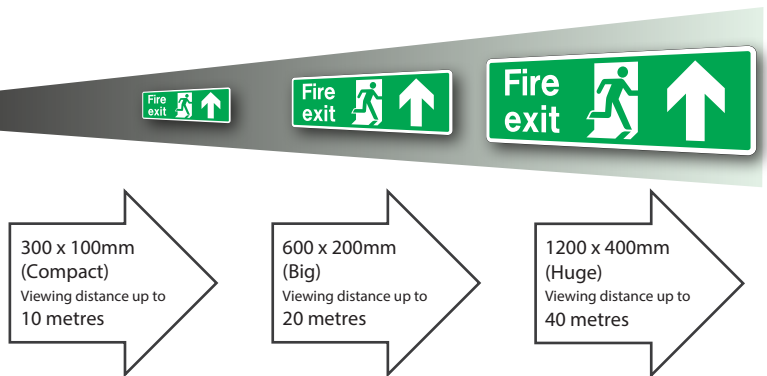

2m - 2.5m

from floor level to base of sign.

Directional wall fixed signs:

1.4m - 2.0m

from floor level to base of sign.

## Easy Ordering

### Understanding the Code

All of our standard products featured in this catalogue are identified by a unique five or six figure product code, followed in most cases by a size code consisting of two letters. e.g. **20 11090 RG**

**10 20 30 11090 KD | RG**

#### MATERIAL CODES

This tells you the materials the sign is available in.

- e.g:
- 10** = Aluminium
  - 20** = Rigid Plastic
  - 30** = Self-Adhesive Vinyl

#### SIZE CODES

These are the sizes that the sign is available in. (See price grids for size identification)

#### PRODUCT CODE

This is the unique product code for that design.

To order this sign in Rigid Plastic size 600 x 200mm use the code: **20 11090 RG**

### How to Order

**10 20 30 11090 KD | RG**

#### STEP 1

- ▶ Find the sign design you require.
- ▶ Note the product code.

**10 20 30 11090 KD | RG**

#### STEP 2

- ▶ Choose the material you require.
- ▶ Use our material guide on the left to select the most suitable material for the job.

**10 20 30 11090 KD | RG**

#### STEP 3

- ▶ Look at the sizes your sign is available in.
- ▶ Use the price grids for size codes.
- ▶ Choose the most appropriate size using the installation guide above.
